MANUFACTURE ELECTROACOUSTIQUE

THE ART OF SOUND
WITH A FRENCH TOUCH

A ROMANTIC SOUND PHILOSOPHY

TRIANGLE
MANUFACTURE ELECTROACOUSTIQUE

A FRENCH VISION OF ROMANTICISM

The importance of emotions

Romanticism is the emphasis on emotion and sensitivity against reason and rationalism.

A TRIANGLE speaker is developed to reveal the music according to our own sensitivity.

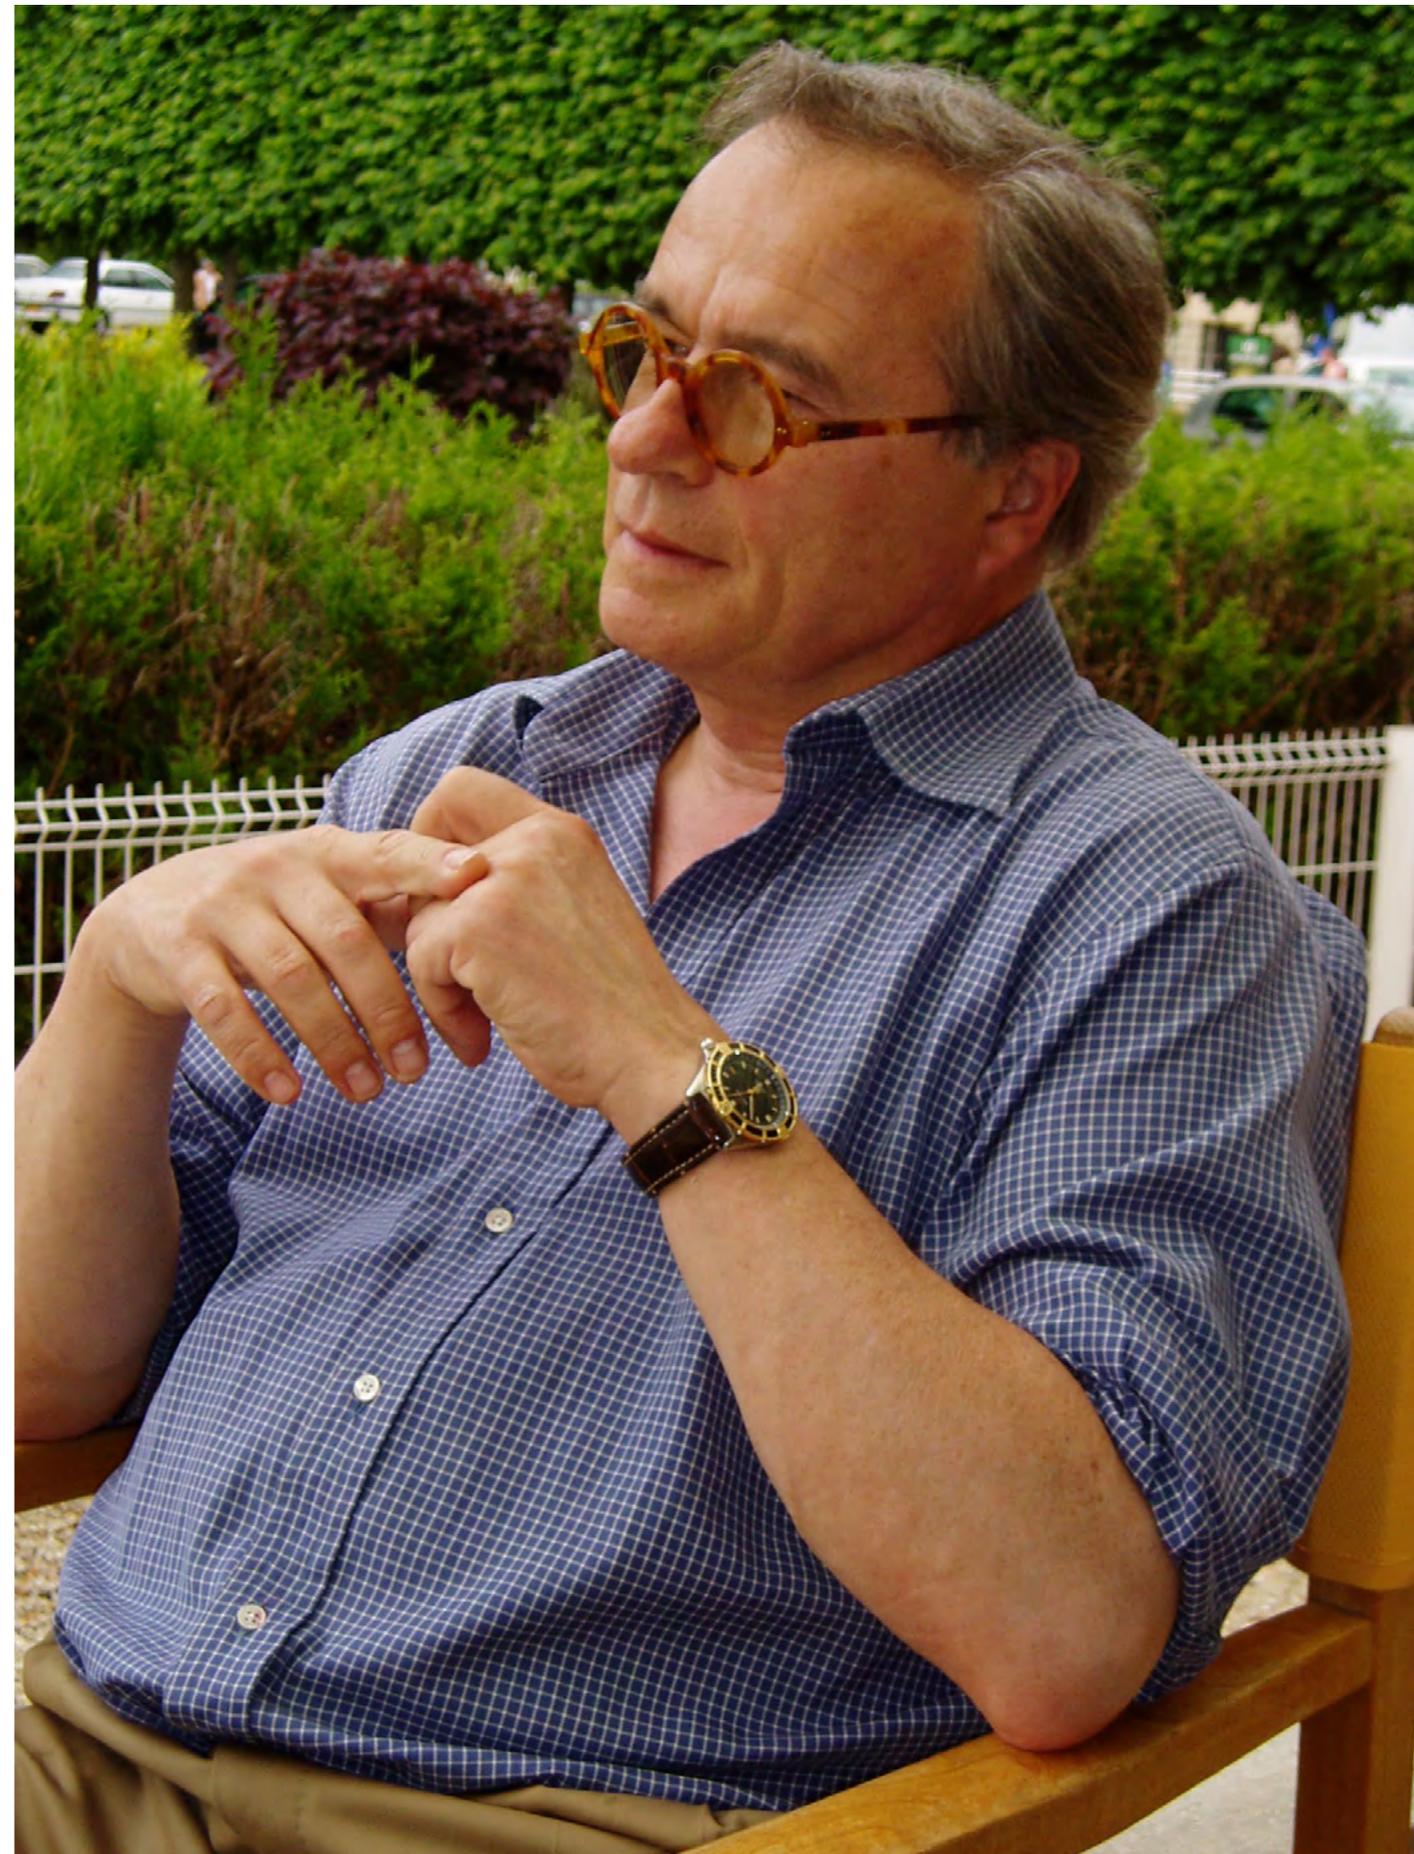

RENAUD DE VERGNETTES

The founding member of
hi-fi romanticism in France

Our founder, Mr De Vergnettes, was
a designer and music lover.

These two passions led him to
develop his own speakers, in line
with his personal sound and design
philosophy.

So was created the essence of
TRIANGLE's sound signature.

THE PURSUIT OF LIVE SOUND

The nature of music

TRIANGLE's desire is to make you feel the music intensively, as if you were at the heart of the concert.

This calls for a dynamic and living sound which conveys all the finesse and beauty of any musical composition.

**Jean-Luc Ponty chose TRIANGLE speakers for their musicality and energy.*

TRIANGLE
ESPRIT
ANTAL E2

THE DYNAMISM OF HORN-LOADED TWEETER

A real Triangle trademark of
technology and performance

The horn-loaded tweeter uses a titanium dome in combination with a compression chamber, in order to provides high efficiency with low distortion and excellent directivity.

THE LIGHTNESS OF PAPER MIDRANGE CONE

An excellent realism of voices

TRIANGLE uses light and resistant materials to maintain maximum information levels, even at low volume.

THE SPEED AND PRECISION OF THE WOOFERS

The full control of the bass
allows the medium to
work freely

The woofers are made out a sandwich
of fiberglass and paper. They are
designed to assure that the bass driver
moves quickly and precisely.

THE STORY OF A FRENCH MANUFACTURER

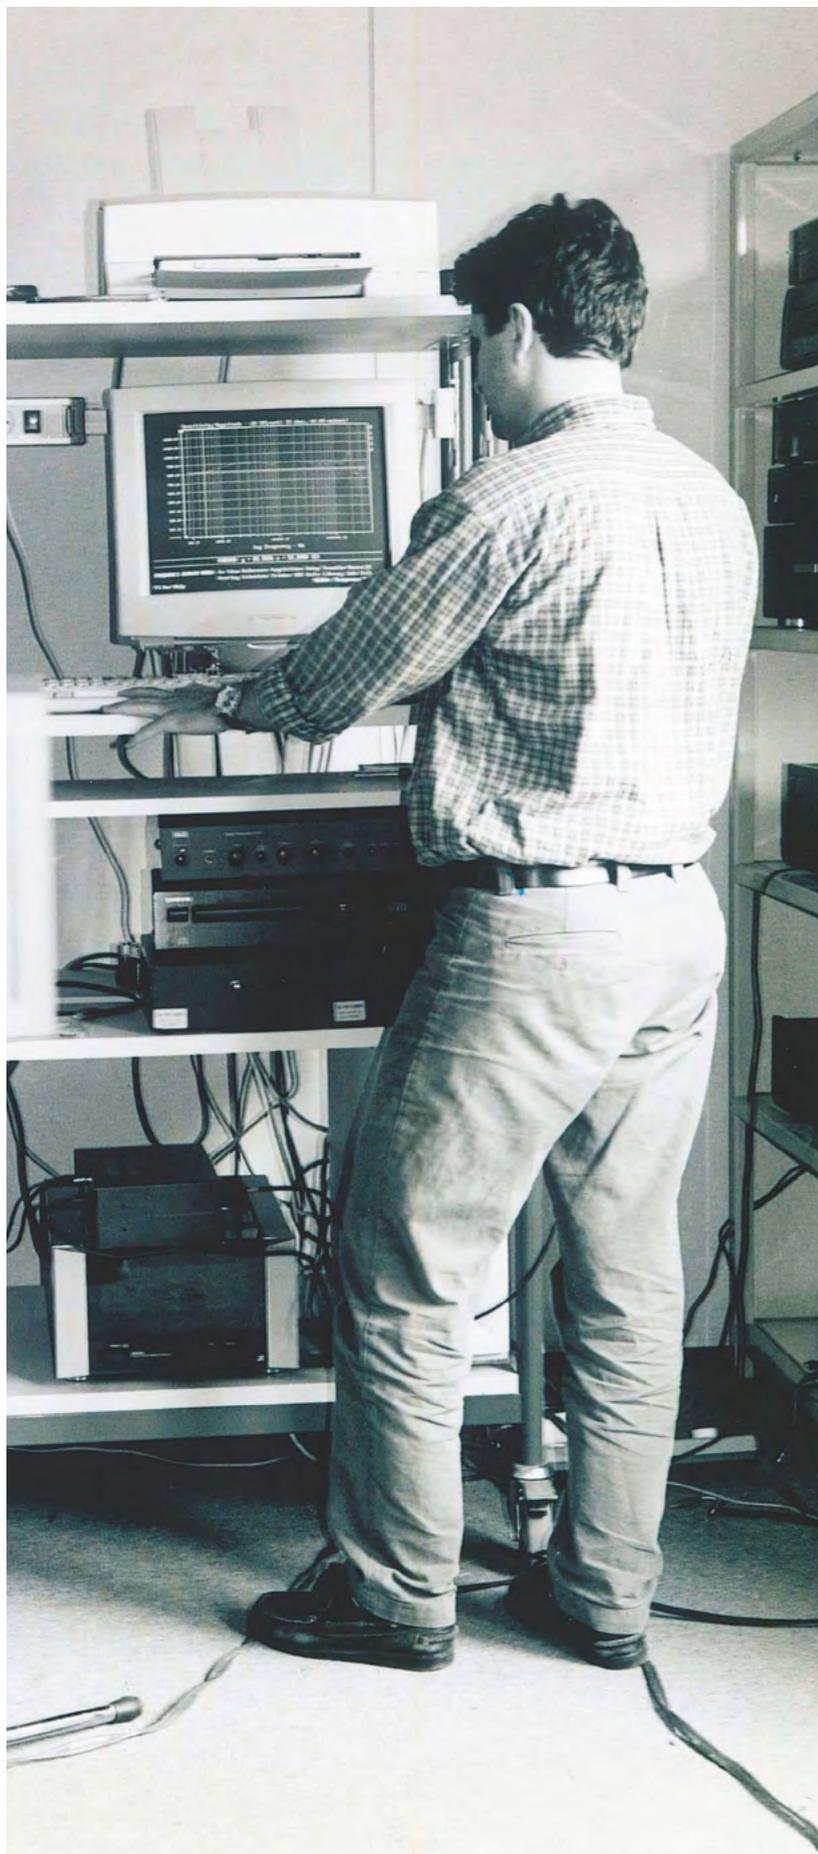

THE KEYS OF TRIANGLE'S SUCCESS

EVERYTHING IS ENGINEERED IN FRANCE

For more than 35 years, TRIANGLE is designing, engineering and developing its own drivers and technical components in its factory of Soissons.

Each TRIANGLE speaker is unique.

35 YEARS OF EXPERIENCE

Our speakers are the result of the hard work and expertise of TRIANGLE craftsmen, with 35 years of experience in acoustics and aesthetic.

A LUXURY CRAFTSMANSHIP

Each speaker is a form of luxury craftsmanship, made and assembled with an uncompromised precision.

Our drivers are fully assembled by hand in our workshop to ensure the quality and zero dispersion.

HISTORICAL HERITAGE IN SOISSONS

Since the beginning, TRIANGLE always stayed in Soissons to develop and produce its speakers.

Our building has been specifically designed to fulfill the highest standards of R&D and production.

A WORLDWIDE RECOGNITION

More than 100 awards
in 35 years

Only in France, TRIANGLE was awarded 21 Gold Diapasons for its non-compromised sound reproduction quality, that embodies the beauty and emotion of music.

THE CUTTING-EDGE TECHNOLOGY

TRIANGLE
MANUFACTURE ELECTROACOUSTIQUE

ADVANCED DRIVERS SIMULATION SYSTEM

Fundamental research are conducted to make TRIANGLE one of the most innovative of the industry.

A Klippel system - to digitally simulate drivers behaviors - and latest 3D printers allow us to improve permanently our drivers technology.

**Horn-loaded tweeter, a TRIANGLE exclusivity.*

POWERFUL TOOLS : INTERNAL ANECHOIC CHAMBER

A room of 120m³ to perfectly measure every speaker

Specificity TRIANGLE, in addition to classic drivers control each complete speakers is tested in Anechoic chamber with a very low tolerance level.

UNIQUE PATENT DEVELOPED BY TRIANGLE

SPEC

The SPEC (Single Point Energy Conductor) is a brushed steel point.

Like the cello, it evacuates part of the mechanical energy towards the floor, thus improving sound quality.

UNIQUE PATENT DEVELOPED BY TRIANGLE

DPS TECHNOLOGY

DPS is a second tweeter at the rear of the speaker, expressing the highest frequencies without interfering with the signal emitted from the front of the speaker. It provides an almost holographic restitution of the sound-stage.
