The AIO TWIN speakers are packed with technologies and TRIANGLE know-how. Versatile and in a sleek design, they are a state-of-the-art product.

With all the features and performances of a modern Hi-Fi system, they offer a rich, precise, and detailed sound. With Bluetooth/Wi-Fi connectivity, you can easily stream your music in high-resolution (24 bits/ 192 KHz) from your smartphone, tablet, or computer.

They also feature a Phono input, compatible with most turntables available on the market.

In partnership with the famous brand Pro-Ject, Triangle offers a dedicated model, with a finish complementing the speakers perfectly. The wide connectivity also allows to plug a flat screen TV or any other audio source. You can even add a subwoofer to complement a full frequency Hi-Fi system.

You will appreciate their minimalist design and wide range of finishes: Black, White, Blue, Green, Brown Maple and Macassar.
