NEW

LUNAR 1 TURNTABLE

The sound quality of vinyl made easy

WWW.TRIANGLEHIFI.COM

The perfect gateway into the world of vinyl

A turntable accessible to all

Start of 2024, TRIANGLE, the French loudspeaker manufacturer, launches a new turntable developed in partnership with Pro-Ject. The new TRIANGLE LUNAR 1 maintains the brand's philosophy and offers

carefully crafted products available in a wide range of colors at an affordable price. It is possible to compose modern, trendy sets with vinyl and the amplified speakers of TRIANGLE, all with a harmonious finish.

Pro-Ject
AUDIO SYSTEMS

Pro-Ject is the European leader in design and manufacturing of turntables. The brand is well known for its turnkey, custom-built models.

Streamlined design

Quality materials

HIGH-DENSITY WOOD BASE

The LUNAR 1 features a high-density fiberboard base (25kg/m³) to absorb vibrations and guarantee high purity of the sound.

The ribbed platter is made of ABS polymer to create a resonance-free platform.

ENTIRELY FACTORY-SET

The LUNAR 1 is factory-set for easy installation. An experienced operator manually adjusts the tonearm and the cartridge to guarantee a ready-to-use product.

The next-generation flat belt is easily and discreetly fitted under the turntable platter.

ORTOFON CARTRIDGE AND ALUMINUM TONEARM

Designed down to the smallest details, the lightweight, low-friction 8.6" aluminum tonearm is optimized for the OM-5E cartridge, which features an elliptical diamond stylus.

COMPATIBLE WITH 33 & 45 RPM RECORDS

To be perfectly compatible with most vinyl records on the market, and to ensure optimum user comfort, the tracking force is changed by simply pushing the switch on the side of the turntable. Switching from 33 rpm to 45 rpm records is quick and easy.

QUALITY MATERIALS

The LUNAR 1 is manufactured in Europe by our long-time partner Pro-Ject.

The included phono cable features high purity oxygen-free copper (HP-OFC) conductors and gold-plated RCA connectors to ensure a perfect conductivity of the signal.

A sleek and modern design

5 elegant finishes

The new LUNAR 1 is available in 5 trendy finishes: Black, White, Cream, Green and Blue.

This turntable provides a delight for the ears and the eyes, boldly blending trendy colors and the unique sound quality of vinyl.

Black

Cream

White

Blue

Green

One turntable, 5 finishes, a world of possibilities

In association with our active ranges

The new LUNAR 1 turntable has been specially designed to match all our amplified speakers and offer coherent, high-performance sets.

The speakers of the Borea Connect, Active Series & AIO TWIN ranges will offer you high-quality wireless music, as well as an integrated phono pre-amp for easy turntable connection.

Here are some examples of our turntable sets:
