ESPRIT EZ RANGE

New teak finish

Representing the culmination of over 40 years of acoustic research and recognised expertise, the ESPRIT Ez range embodies the very essence of TRIANGLE. Designed to offer a listening experience that is both precise and dynamic, these speakers have become a symbol of balance between sound performance and refined design.

Now TRIANGLE has reinterpreted the range with a new, exclusive finish: Teak.

AN ICONIC FINISH

For an assertive style

Evoking the design of Scandinavian furniture from the 50s, the Teak finish brings warm, satiny tones to the ESPRIT Ez speakers, giving them a subtle yet assertive visual presence. The natural grain of the wood, combined with a deep, silky hue, gives each model a decorative dimension, capable of harmonising with both contemporary and more classic interiors.

Designed for an elegant presentation this new finish retains the sleek lines of the range, while highlighting the speakers. Behind this soft aesthetic lies TRIANGLE's sound DNA: faithful, lively reproduction of your favourite music.

AN EXCLUSIVE FINISH

For the full ESPRIT Ez range

Available on all models in the range, the Teak finish combines retro elegance with audiophile demands. This new finish further affirms the unique identity of the ESPRIT Ez range.

AUSTRALE
2999€*

ANTAL
1799€*

COMÈTE
849€*

TITUS
699€*

VOCE
479€

From the majestic Australe to the compact Titus, not forgetting the iconic Comète and Antal and even the Voce centre channel, the full range is now dressed in this elegant new wood finish.

The Teak finish is available now from authorised TRIANGLE dealers. Rediscover your music in style.

*Recommended retail price (inc. VAT) per pair, except Voce Ez, which is sold individually.

THETIS RANGE

New Light Oak finish

TRIANGLE is expanding its range of subwoofers with the introduction of a Light Oak finish for the THETIS range. With this new finish and a more attractive price the brand is offering products that are still as high-performance as ever, but now more affordable, so that TRIANGLE sound quality can be enjoyed by as many people as possible.

The THETIS 300 and THETIS 340 are designed to enhance any type of audio installation, thanks to their versatility. Whether for an immersive home cinema system or a stereo system dedicated to music listening, they provide depth, impact and balance.

A NATURAL FINISH

Easy to integrate

The Light Oak finish provides a soft, luminous woody hue that softens the visual presence of the subwoofer while adding a warm touch. Its matt, natural appearance means it blends discreetly and elegantly into all types of interiors, whether modern or more traditional.

Already adopted on several TRIANGLE ranges - BOREA, BOREA CONNECT, ESPRIT EZ and ACTIVE SERIES - this finish makes it possible to compose a visually coherent audio system, while benefiting from a dynamic and precise sound signature. This harmony creates a coherent audio system that is as pleasing to look at as it is to listen to.

Both are based on Bass-Reflex architecture, offering deep bass in a controlled format. The various settings (volume, crossover frequency, phase) are accessible from the rear.

For added convenience in everyday use, a remote control lets you adjust the volume remotely, while a front-panel display clearly shows the current sound level. A duo designed for simple, practical and precise use.

THETIS NEW PRICE POSITIONING

THETIS 340
New price : 675€
Old price : 799€

THETIS 300
New price : 549€
Old price : 649€

The THETIS 300 and THETIS 340 are now available exclusively in Light Oak and Black Ash, two finishes designed to suit many interior styles.

They are available now from TRIANGLE's network of partner dealers, at a new, more affordable price, without compromising on sound quality.
